The number 3 does not yet appear in row A. Math is not required to play Sudoku. In box A7-C9, the missing 2 can only go in cell B7 or B8.

Except for in the case of the most simple puzzles, players will have to visit each cell. It's time to pencil in all the possible candidates for the remaining cells. Step 42 A2 is the last empty cell in box A1-C3 and the missing number is 7. As such, we take a moment to repeat the Penciling In process for nonet A.

The sum of all numbers in any nonet, row, or column must match the small number 48. Because of the number 7 just placed, the only position in column 4 for another 7 is cell G4.
