Please refrain from pointing out the logical problems: Unable to agree on anything, relations between the parties deteriorate further as the story progresses; in the end, each group picks an independent course, turning their propellers in opposite directions. They cross a "river", and arrive at Standard Island, really a massive ship miles long and wide, made of steel, with a population of 10, American millionaires and billionaires.

WanttoReadCurrentlyReadingRead.Averyentertainingread,filledwithhad On the surface, it's a great adventure book in the usual way of Verne with funny characters, heroics, some villains and extensive descriptions of machines, flora and fauna. They can't figure out what odd part of town they've somehow wandered into! Published by Verlagsgruppe Hermann first published
