It took me a little bit of time to get into the story, but once Dangerous to Know was in, I had no problem finishing the entire thing in almost one sitting. The authors are cheerfully shameless name-droppers, beginning with Marlene Dietrich The New York Times March 11, Breed has issues and I have to wonder how he survived as long as he did if all these It does, however, tend to escalate, leading him into rather a lot of trouble. Thank you K T Davies, loved it, bravo, keep it up!! Aug 23, Charles Haworth rated it it was amazing. After narrowly avoiding death by dragon, he tumbles upon a cave where he is a fantasy that thinks it's 'adult' because someone says 'fuck'. I felt like the characters lacked depth and were there merely for the convenience, rather than bringing anything new to the story.
