Interestingly, the US experts have the most disparity in opinion on how to achieve more female leaders. He showed that a wide range of EI competencies and a narrow range of cognitive ones distinguished top performers from average ones. Conscientiousness and performance of sales representatives: At another level. In other words, never become complacent or happy with the status quo. McClelland argues that a critical mass of competencies above the tipping point distinguishes top from average performers.

Brackett shares his vision for the new center. After years of avoiding entry into McClelland's landmark work The Achieving Society established Achievement Orientation as the competence that drives the success of entrepreneurs.
