There are other avenues that could be developed in the future, in this respect. Project MUSE promotes the creation and dissemination of essential humanities and social science resources through collaboration with libraries, publishers, and scholars worldwide. So from a Soviet perspective, these nuclear sharing policies the term used by the U. In part, this was for aesthetic reasons. The result has been a global nuclear security regime built on a two-tier concept of rationality, sustained by the persistence of what were and still are basically Orientalist assumptions. Bush's nuclear policy and his preoccupation with the "axis of evil," Maddock uncovers the deeply ideological underpinnings of U. Though never fully explaining this paradigm, nor exploring the realist implications of such a U. This was not the case. Without writing polemically, it indicts the nuclear powers for their short-sightedness, their contradictions, and their affection for the romantic symbolism of big weapons.
