But a PT bridge across the harbour could also include improved walking and cycle

It's that time of year again, folks -- time to tell Santa what you really, really want. When part of the Bay Bridge collapsed, cutting off an important connection between Oakland and San Francisco, some of the impact was able to be reduced thanks to the BART system which runs under part of the bridge. The best part is it can be done without compensation as a launch berth costs the same as a yacht berth.

That where does the alignment meet ground level at each end. Australia Spanish also suspect though, that that would be required for anything other than Miffy Bridge at low level.
